

Strike Force

When a disgraced former Iranian military chief of staff engineers an insurgency that threatens to destroy the theocratic regime in Iran, a new era appears to be dawning in the Middle East. But one must be wary of old enemies....On the run from the Pasdaran, the theocrats terror army, and unable to count on support from his friends in the regular army, Iranian rebel leader General Hesarak al-Kan Buzhazi desperately turns to his old nemesis, U.S. Air Force Lieutenant-General Patrick McLanahan, for help.Unwilling to commit American forces in an Iranian civil war, and with time running out, the U.S. president authorizes McLanahan to utilize a new, top-secret fleet of globe-crossing spaceplanes, the XR-A9 Black Stallions, led by test pilot and astronaut Captain Hunter Noble. Within hours, McLanahans Air Battle Force turns the tide, possibly changing the course of history in the Middle East for generations.The advent of almost instantaneous global reach, along with the reactivation of Americas first military space station, Silver Tower, has rekindled fears of a space arms race, and the growing insurgency in Iran is threatening to erupt into a worldwide jihad. But McLanahan finds himself embroiled in even more bitter battles at the White House, between those who support his space-based military initiative and those who are working secretly to undermine it. When McLanahan is forced to concentrate on his political and personal battles back at home, its left to Hunter Noble and his team of young American space engineers to keep the fires of freedom in the Middle East from exploding completely out of control.
