

Mission To Burma

A CIA asset carrying highly classified information disappears when her plane is shot down over Burma. Two paramilitary rescue teams are sent to track her but are compromised, captured or killed. There's only one person left who might be able to get her and the intel back to safety: Mack Bolan. Moving carefully through a maze of inhospitable and dangerous mountain terrain, Bolan must avoid Chinese forces seeking to recover what was stolen from them, and the Indian military, who hope to snatch for themselves the information about China's nuclear missiles. But the Executioner's moves aren't just being monitored; they're being anticipated. Someone on his side is working against him.
