Just when she felt like she was getting used to--and, okay, enjoying--being on display to a roomful of doctors, Caroline realized things were going to get more intense. First, to be a subject in a study on female sexual response means she's going to have to participate more actively--while fifteen men watch and take notes...Then stern Mrs. Larouche thinks she needs to learn a lesson about obedience...And somewhere in the Institute is her promised partner, that very attractive fellow in the green silk pj pants--will he turn up in the demonstration classroom? About the Hartly Institute Series: Each book can stand alone, but over all the story builds in intensity as Caroline becomes acclimated to her new environment.
